Four topics are covered in this course. You must complete a main points paper for each topic by reading about the topics on ProCon.org. Pick out the points that you feel are the most important and relevant to the topic. You must state and analyze the main points of each section: Background, Pro, Con and Videos.

Main Points and Point Analysis Explanation:

  - Is it a good example?
  - Is it an idea you agree with/disagree with/are not sure you believe?
  - Is it an interesting fact?
  - Does it resonate with you personally (such as remind you of something you’ve personally seen or experienced)?
  - Does it conflict with your personal experience?

Format for each Main Points Paper:
Organize each main point and point analysis in bulleted points format.

Requirements for each Main Points Paper:
Points will be removed if you fail to meet any of the requirements listed below. Students are expected to learn from their mistakes and improve their work throughout the semester. **As the semester progresses, more points will be removed for failure to correct previous mistakes and meet stated requirements.** Grade explanations will be emailed to students who lose points for making mistakes. Read grade explanations carefully to prevent future mistakes.

• Submit to the correct link in Assignments. This uploads your paper to Safe Assignment, a plagiarism detection device. See plagiarism warning on page 13.

**Blackboard Discussions (4 @ 25 points each, 100 points total)**

You are required to participate in a discussion for each topic. You will be placed in a group of 5-7 of your fellow students to discuss the topic and complete the assignment.

First post deadlines: The discussions require that you reply to at least 2 posts from your fellow classmates. Some students wait until the last minute to complete assignments. If everyone waits until the last minute to post comments then some group members don’t have posts to reply to and can’t complete the assignment. To combat this problem all group members must complete at least 1 post by the first post deadline. This way all group members have an opportunity to reply to other posts and complete the assignment on time.

Appropriate/Inappropriate content of the online discussions: Please reserve the online discussions for topics relevant to this assignment. If you want to send an individual email to anyone in the group who has commented, you may do that by clicking on their name. Comments such as “Hey John, remember me? I was in another class with you” or “I am interested in getting together for coffee” are considered inappropriate content for the discussion board. Your instructor will delete any inappropriate content. Curse words, disrespectful language and rude comments will not be tolerated. Penalties for this inappropriate behavior include points being removed from your grade or a 0 in the assignment.

**Requirements for EACH Discussion:**

Points will be removed if you fail to meet any of the requirements listed below. Students are expected to learn from their mistakes and improve their work throughout the semester. **As the semester progresses, more points will be removed for failure to correct previous mistakes and meet stated requirements.** Grade explanations will be emailed to students who lose points for making mistakes. Read grade explanations carefully to prevent future mistakes.

- **Number of posts:** You must submit at least 4 posts in EACH discussion.
- **Post length requirement:** Each posting must be at least 10 sentences long. They can be longer.
- **Timing of first post:** You must submit your first post by the 1st post deadline (see course schedule)
- **Integration of information from Pro section:** Somewhere among your 4 posts you must integrate information from the Pro section. This information doesn’t have to be in each of your posts, just somewhere among your 4 posts.
  - This discussion needs to be in depth. You must include at least 5 sentences.
- **Integration of information from Con section:** Somewhere among your 4 posts you must integrate information from the Con section. This doesn’t have to be in each of your posts, just somewhere among your 4 posts.
  - This discussion needs to be in depth. You must include at least 5 sentences.
- **Final opinion:** Your last post must state and explain your final opinion. This summarizes your opinion after reading the text, participating in the discussion with your fellow students and critically analyzing the topic. You must answer the following questions:
  - State and explain your final opinion on the topic.
  - What did you learn about this topic?
  - Did you have a strong opinion on this topic before completing this assignment?
  - Has your opinion changed or stayed the same? Why?
PowerPoint Presentations (4 @ 30 points each, 120 points total)
You will create a short PowerPoint presentation on each topic following the guidelines listed below. You are to pretend you are working for a legislative lobbying organization. Develop a PowerPoint presentation summary of bullet points which highlight the convincing points which would persuade a Congress person to vote for your side or fund your assigned side of the topic.

You will be assigned to either a Pro or Con side of the topic. You CANNOT pick which side you prefer or personally support. The purpose of this assignment is to force you to advocate for a perspective regardless of your own personal opinion.

Guidelines for PowerPoint Slides:
A goal of this assignment is to have you summarize information you are presenting in a concise manner. Students sometimes assume that more information is better. Concise summary is an important skill, especially when attempting to convince someone of a particular point-of-view. I strongly suggest that you stay within the following guidelines for your PowerPoint slides (not including the APA citations references):

- Approximately 5-7 bullet points per slide
- Approximately 5-9 words per bullet point

Requirements for PowerPoint Presentation:
Points will be removed if you fail to meet any of the requirements listed below. Students are expected to learn from their mistakes and improve their work throughout the semester. As the semester progresses, more points will be removed for failure to correct previous mistakes and meet stated requirements. Grade explanations will be emailed to students who lose points for making mistakes. Read grade explanations carefully to prevent future mistakes.

- Slide 1: Organization you are representing & Topic perspective
  - Organization - You must research an existing organization that advocates for your side of the topic you are addressing. Pretend you are representing this organization.
  - Topic - state what you will be discussing and whether your argument is Pro or Con

- Slide 2: Opposite side of the argument
  - Briefly summarize the other side of the argument. This needs to be in your own words. You CANNOT quote points from Procon.org or any other source. See Plagiarism Warning on page 13.
  - Include 1-2 references from an academic, peer-reviewed journal NOT found on ProCon.org. Provide an in text citation for each reference (see APA Style Citation Guide).

- Education campaigns: create new/support existing/discontinue existing

Slide 6: APA Style Citations

- Adhere to APA style STRICTLY! See APA Style Citation Guide in blackboard. You are given an entire assignment to practice citing sources in correct APA style, so your citations are expected to be flawless.
- Provide a full citation on slide 6 of each reference you made on slides 2-4 (this would be the citation you provide within the reference page of a paper).
- Provide an in text citation for each reference within slides 2-4 (as stated above).
APA Citation Practice Paper (30 points):
The purpose of this assignment is to provide practice citing sources in correct APA style. Adhere to APA style STRICTLY! See APA Style Citation Guide in blackboard. Your citations are expected to be flawless. Your PowerPoint presentation grades will be affected by your understanding of APA style citation, so read the grade explanation for this assignment (emailed by the instructor) carefully.

Requirements for APA Citation Practice Paper:
Points will be removed if you fail to meet any of the requirements listed below.

- Consult the APA Style Citation Guide in blackboard for this assignment.
- Submit to the correct link in Assignments. This uploads your paper to Safe Assignment, a plagiarism detection device. See plagiarism warning on page 13.
- Put the assignment in the format displayed below.
- Pick any public health topic. You will NOT be writing about this topic. You will only be finding journal articles (academic, peer-reviewed journals) on this topic and citing these sources correctly.
- Find 5 different journal articles (academic, peer-reviewed journals) with information on this topic.
  - 2 of these articles must have a DOI number (digital object identifier). See APA Style Citation Guide in blackboard for details.
- Cite these journal articles in APA style format.
  - Each source must include a reference citation and an in text citation. See APA Style Citation Guide in blackboard for details.

**Syllabus Quiz (10 points):**

This quiz is located in Blackboard under Quizzes. It is timed and must be completed within 50 consecutive minutes. If you exceed this time limit you will lose 1 point for every minute you go over the time limit.

**Course Policies & Procedures:**

- **Late assignments:** Late assignments will be assessed a 5 point per day penalty. A documented emergency is the only situation where late points will be waived. A student must receive permission from the instructor to submit an assignment later than a week after the due date. It is recommended that you stay ahead of schedule on the assignments, so if an emergency occurs, your assignment will be completed and submitted within the designated time frame. Technical difficulties cannot be used to justify late assignments.

- **Notice for academic assistance:** Students with disabilities are encouraged to contact the instructor to discuss support necessary to achieve academic success (see undergraduate catalog). Documentation of accommodations must be provided to the instructor by the second week of the semester.
• **Excused absences:** It is university policy that student absences will be excused for military duty, jury duty, and religious days. Consideration will also be given to special requirements of other courses currently enrolled in by the student (e.g., university sponsored events, music performances, athletic competition, judging trips, and field trips) and students who participate in University-sponsored activities. Students who are unable to attend class or complete an assignment because of these reasons must provide notice to the instructor, through email, by the second week of the semester. Students must make arrangements to complete assignments before the deadline. Employment schedules and athletic training/practice schedules of students do not comprise a valid excuse for absences. Excused absences for other reasons may be allowed or declined entirely at the discretion of the instructor.

• **Documented emergencies:** Late assignment submission will be excused for unexpected emergencies when a student can provide proper documentation. These include severe illness of the student/student’s dependent(s), deaths in the immediate family, other crisis and severe weather conditions. Students must contact the instructor and provide documentation as soon as possible. Judgment of whether a situation is an emergency, whether documentation is sufficient and whether the student contacted the instructor in a timely fashion is entirely at the discretion of the instructor.

• **Civility and Ground Rules:** All communication between instructor and students (including among students) must be respectful to all parties involved. Rude or disrespectful communication will not be tolerated and will be considered a disruption of the academic process (see undergraduate catalog).

• **Extra credit:** No extra credit is available in this course. Please refer to the grading rubrics so you know what is expected from each assignment.

• **Email:** It is required that you include your first and last name and the course for which you are registered in every email. If you send email through Blackboard it will automatically include the course in which you are registered. You will receive a response to your email in 24-72 hours.

• **Sale or distribution of notes or other class products:** All course notes, documents, materials or products may only be used for this class and cannot be distributed for purposes other than this class. Students are not permitted to take notes in class for remuneration (except when the note taker is employed on behalf of a student receiving accommodations) or for the purpose of sale to any person or entity.

• **Audiovisual Recordings:** All unauthorized recordings of class are prohibited. Recordings that accommodate individual student needs (including students receiving accommodations) must be approved in advance and may be used for personal use during the semester only; redistribution is prohibited.

• **S/U Grade System:** This course is not eligible for an S/U (satisfactory/unsatisfactory) grade.

• **Late withdrawal:** Late withdrawal requests will not be approved after the last quiz.
**Plagiarism Warning:**
As you are working on your assignments in this course, be sure that you synthesize information into your own words and carefully paraphrase any information you find from any source. When you upload your paper to Safe Assignment you are submitting your paper to a plagiarism detection device. In the past, students have received no credit for completing an assignment because they plagiarized portions of their papers. Be sure that you are very careful not to plagiarize any portion of an assignment. The penalties for plagiarism are severe, and it is very difficult for a student’s overall grade to recover if they receive a score of 0 on any assignment. Review the plagiarism quiz that was assigned at the beginning of the semester if you have any questions about plagiarism.

Every so often I have a student that wants to make absolutely sure that they aren’t plagiarizing, so they fill their paper with direct quotes. Quotes are fine, if correctly quoted and cited, but they should not make up the majority of any portion of a paper. As a general rule of thumb, direct quotes shouldn’t take up more than 20% of a paper or any one requirement within a paper. The point of the paper is for you to synthesize the information yourself, not copy it word-for-word from somewhere else.

In conclusion, carefully paraphrase information that you find and put it into your own words. Do NOT cut and paste information from any source. If you use direct quotes, use them sparingly and cite the source correctly.

**University Policies:**
See the undergraduate catalog for University Policies, including “I” grade policy, resources for students with disabilities, course attendance at first class period, general attendance, academic dishonesty, disruption of academic process and student academic grievance procedures.

http://www.ugs.usf.edu/catalogs/catdl.htm

**FERPA and Paper Submission:**
FERPA is the Family Educational Rights and Privacy Act. This course requires you to submit your paper to a plagiarism detection site that will be identified by your instructor. In order to comply with federal and state privacy laws, you (students) are not required to include personal identifying information such as your name, SSN, and/or U# in the body of the work (text) or use such information in the file naming convention prior to submitting. Please follow your instructor’s instructions regarding what identifying information to include. Your submission will be placed in the course grade center in your account that can be accessed by the instructor and attributed to you.

**Campus-wide Emergencies:**
In the event of an emergency, it may be necessary for USF to suspend normal operations. During this time, USF may opt to continue delivery of instruction through methods that include but are not limited to: Blackboard, Elluminate, Skype, and email messaging and/or an alternate schedule. It’s the responsibility of the student to monitor Blackboard site for each class for course specific communication, and the main USF, College, and department websites, emails, and MoBull messages for important general information.
